## *Contemporary* Fireplace Design Collection

Contemporary style. Timeless elegance.

Some of the most stunning fireplace designs are barely there. When a simple outline is all that lies between you and an unobstructed flame, the fire shines. And the “place” — fades away.

The Astria contemporary collection brings you fire at its finest. Award-winning design and the latest technology fuse together seamlessly into works of art that are not only beautiful, they're efficient. The best of both worlds has never looked better.
